

Times table Rockstars

This is the practise order for the times tables set by your child's class teacher in the **Garage and Arena** games on Times Table Rockstars. The Band Manager (teacher), sets up a 20-week practice schedule for their pupils.

Research shows that it is important that teachers make it easy to start with. The temptation, is to give for example, a Year ½ pupil the 2s, 5s and 10s altogether. Each table is made up of 48 facts, not 12, so by selecting just three of the tables, there are nearly 150 facts in front of the pupils. We aim to get the pupils off to an easy start so that they fall in love with Times Table RockStars and build up the confidence they're going to need when it gets harder.

Remember not all pupils learning develops at the same time and your child may not always be working within their year group age.
