20th January 2022

Dear Parents

COVID-19 Positive Case

We are writing to inform you that today, **20th January 2022**, we have a confirmed COVID-19 case in Rousham Class (Year 5 and Year 6).

We know that you may find this concerning, but we are continuing to monitor the situation and are working closely with Oxfordshire County Council. This letter is to inform you of the current situation and provide advice on how to support your child. Please be reassured that for most people, coronavirus (COVID-19) will be a mild illness.

The school remains open and your child should continue to attend as normal if they remain well. However, we ask that you remain vigilant concerning COVID-19, regardless of your child's year group.

What to do if your child develops symptoms of coronavirus (COVID-19) or tests positive for COVID-19

If your child develops symptoms of coronavirus (COVID-19), they should get a PCR test and remain at home at least until the result is known. If negative, the child can end self-isolation; if positive, the child should follow isolation guidance which can be found here <https://www.nhs.uk/conditions/coronavirus-covid-19/self-isolation-and-treatment/>

Symptoms of coronavirus (COVID-19) are a new, continuous cough, or a high temperature, or a loss of, or change in, their normal sense of taste or smell (anosmia). Anyone with symptoms will be eligible for a PCR test (the normally available test type) and this can be arranged via [Get a free PCR test to check if you have coronavirus \(COVID-19\) - GOV.UK \(www.gov.uk\)](https://www.gov.uk/get-a-free-pcr-test-to-check-if-you-have-coronavirus-covid-19) or by calling 119.

Instructions for people who live in the same household as someone with COVID-19 (tested positive or symptomatic awaiting a test result)

Please see the [stay at home guidance](#) with information of what the household should do.

If you develop [symptoms](#) at any time, even if these are mild, self-isolate immediately, [arrange to have a COVID-19 PCR test](#) and follow the [guidance for people with COVID-19 symptoms](#).

For most people, coronavirus (COVID-19) will be a mild illness.

If your child does develop symptoms, you can seek advice from the nhs.uk website at <https://www.nhs.uk/conditions/coronavirus-covid-19/check-if-you-have-coronavirus-symptoms/>. If you are concerned about your child's symptoms, or they are worsening you can seek advice from NHS 111 at <https://111.nhs.uk/> or by phoning 111.

How to stop coronavirus (COVID-19) spreading

There are things you can do to help reduce the risk of you and anyone you live with getting ill with coronavirus (COVID-19): [guidance on how to stay safe and help prevent the spread](#)

- get vaccinated – everyone aged 16 and over can [book COVID-19 vaccination appointments](#) now

- wash your hands with soap and water or use hand sanitiser regularly throughout the day
- cover your mouth and nose with a tissue or your sleeve (not your hands) when you cough or sneeze
- put used tissues in the bin immediately and wash your hands afterwards
- meet people outside and avoid crowded areas
- open doors and windows to let in fresh air if meeting people inside
- wear a face covering when it's hard to stay away from other people – particularly indoors or in crowded places
- participate in twice weekly LFD testing following national guidelines (recommended for 11 years and over).
We encourage you to log your results here: <https://www.gov.uk/log-test-site-covid19-results>

Further Information

Further information is available at
